

Mantra and Meditation

July 2016
Daniil Gannota

Mantra and Meditation Application.

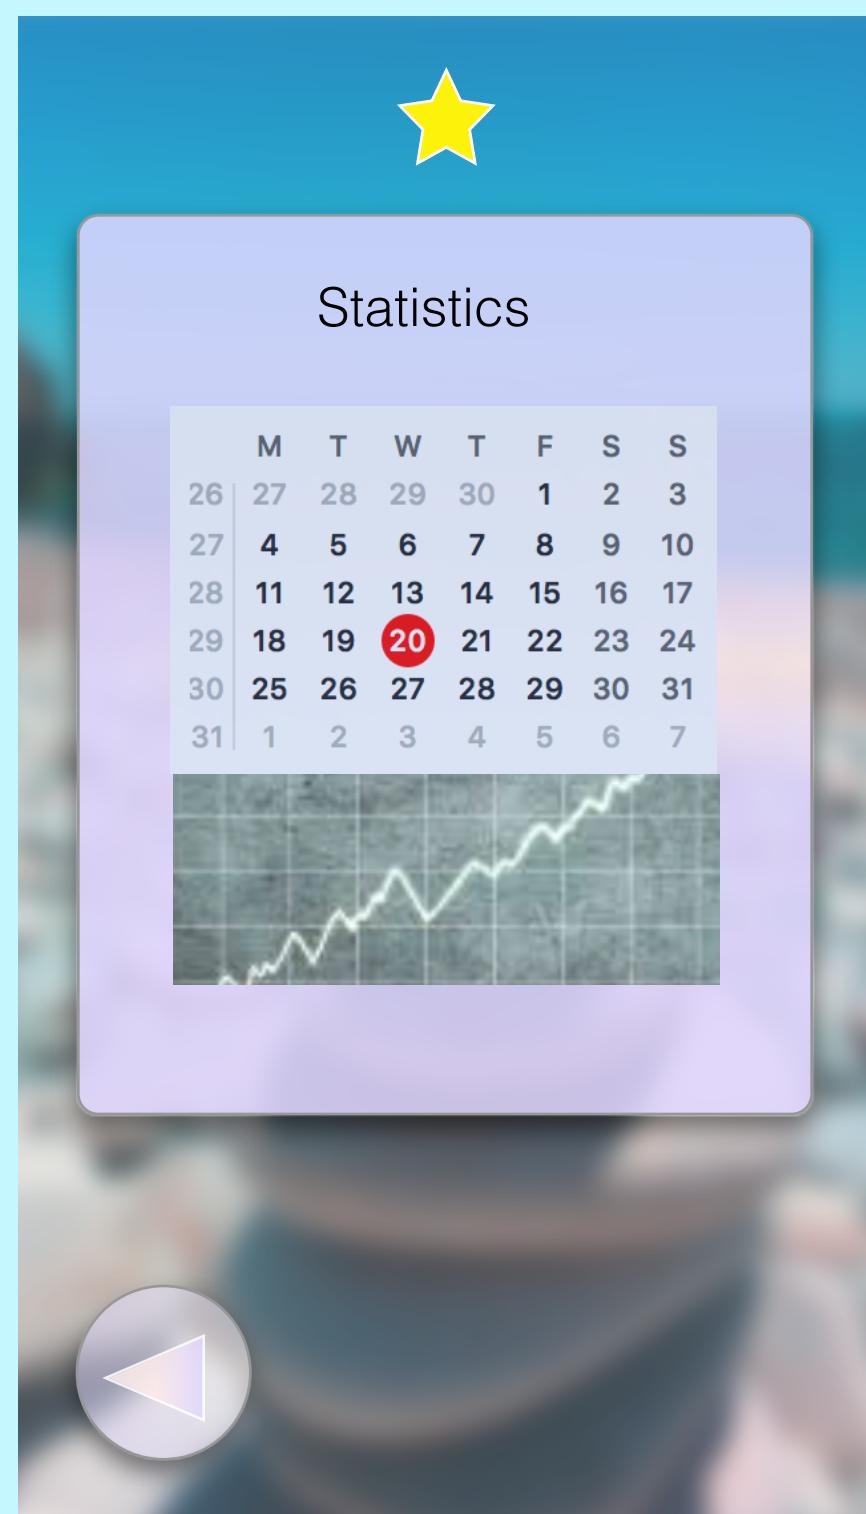

You are able to select the type of meditation you are willing to do, for instance, “Relax” or “Love” options (**Page 1**). After that (**Page 1.5**) you select the time frame and launch the meditation by tapping on the button that is most to the left at the bottom of the screen.

During meditation, depending on the selected type, there will be relevant mantra playing the sound and text displayed allowing users to remember the words to perform mantra themselves. At any stage, you are able to pause (**Page 2**)/resume (**Page 2.5**) and come back to the home screen. The time remaining for your meditation is displayed at the bottom-left.

It is also allowed to collect statistics (**Page 4**) about days/total time that has been meditated. Potentially, you can access preferred type and time frame as well as possible notifications in order to remind about coming meditation.

Going to setting (**Page 3.5**) will enable to set your preferred type, time frame and scheduled notifications. Additionally, it includes relevant information about meditation and mantra.

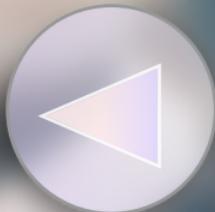

Credits (**Page 3.5**) are showing information about the one person that inspired the creation of the application.
